Install the product

Install the product according to the Playnetic Installation Manual. During the installation, make sure that the potential users can not be exposed to hazards / dangerous situations. Check the stability of the product.

**Number of users**

Playnetic recommends you to use the product with a maximum of one user at a time.

**Overview product**

The overview above shows where all important parts can be found.

**Check interactive elements**

Use the product and generate energy. If applicable, check that the interactive elements such as the music, lights, smell, electronic- and mechanical parts are working properly.

Control the volume

1. Remove the bolts with the supplied hex key.
2. Remove the service hatch with the label.
3. Generate energy with the product.
4. Adjust the volume.
5. Close the service hatch.

Play and test

1. Generate energy with the product.
2. Test if the correct MP3 files are played.
3. Test if the LED line runs correct.
4. Test if the MP3 file and LED color change by pushing one of the buttons.

*Are the MP3 files incorrect? Then change the content. Follow the instructions in the Playnetic User Manual. Contact your dealer when LED line runs incorrectly.

Change the content

1. Get the USB stick who's delivered with the product. Make sure that you meet the following requirements for your new songs:
 - a. Only use MP3-files.
 - b. The name of the MP3 file needs to have at least 5 characters.
 - c. The name of the MP3 file can't contain any strange characters.
 - d. A single MP3 file can not be bigger than 2 MB.
2. Follow the USB instruction
3. Use the supplied hex key and unscrew the bolts.
4. Remove the service hatch.

**USB INSTRUCTION:**

Put the Playnetic USB in the computer. You will see this:

Naam

- CHARGE
- END
- MUSIC
- 01intro

Now open the folder 'Music'. Remove old songs and place the new songs in this folder. Make sure you use six songs!

Naam

- song01
- song02
- song03
- song04
- song05
- song06

*Note: You need this folders and files on the USB-stick, otherwise the content update won't work! Always use the USB stick which belongs to the JukeBox.

Change the content

5. Put the USB stick into the computer.
6. Generate energy with the product. Wait until the update is completed. Remove the USB stick after completion.
7. After updating, wait till the computer is totally empty from energy. Then start playing again.
8. Make sure that you put the dust cover back over the USB port.
9. Close the service hatch.

"In progress, please wait..."

"Downloading data completed, remove USB device"

Receive timelock

1. Receive a USB device. Playnetic has set the correct start- and endtime for you.

Install and manage a timelock

1. Remove the bolts with the supplied hex key.
2. Remove the service hatch.
3. Important! The timelock must be installed at 12 o'clock local time. If the installation is being done too late or too early, the time lock will not work properly.
4. Put the USB stick into the computer.
5. Generate energy. Wait until the update is completed. Remove the USB stick after completion.
6. Make sure that you put the dust cover back over the USB port.
7. Close the service hatch.

Update your timelock 2x a year

For updating your timelock, use the USB device you received from Playnetic with the correct start- and endtime (same USB device for install option). Repeat step 1 to 7 in 'install a timelock' to complete the update.

Maintenance

The product must be maintained according to the Playnetic Maintenance Advice.
